THEATER BOARD

SPEC DATA SHEET **SQ-131**

THEATER BOARD

Sound Quality Black Theater Board is a sound absorptive board that provides excellent acoustic performance by reducing reverberation. Theater Board panels and tiles are made from lightweight, black-dyed acoustic fiberglass board and finished with a matte black fiberglass fabric. This offers a solution to building acoustic ceilings in any residential or commercial space where reverberation or reflected noise is an issue.

FEATURES:

- Excellent sound absorption
- Eliminates unwanted ceiling boundary reflections
- Controls excessive room reverberation
- Eliminates slap-echo between parallel floor & ceiling surfaces
- Improves signal-to-noise ratio for listening, recording & conversation

APPLICATIONS:

- Home theaters/media rooms
- Recording & broadcasting studios
- Clubs, restaurants & entertainment facilities
- Theaters & performing arts spaces
- Rooms where reducing light reflection is necessary

THEATER BOARD

SIZING

Board sizes up to 4' x 8'

INSTALLATION

- Easily cut to size with utility knife
- Rigid board
- Installs in standard 15/16" drop ceiling grids
